Setting our next goals!

Curriculum on climate change

The curriculum to be developed, in accordance with the scope of ECO-MEDIA project, aims to achieve greater knowledge of the most recent European policies and strategies regarding climate change, while situating it within the context of e-volunteering and digital activism.

Toolkit in the scope of climate change

The Toolkit will entail the establishment of three training units to guide youth workers in their daily tasks, as well as six units to engage young people in e-volunteering and digital activism. The curriculum will include an array of training curricula and customized courses, instructional programs, educational platforms, e-learning applications, and material to the planning of activities of diagnosing and fulfilling educational and training needs of individuals and groups.
