

ECO-MEDIA

PROJECT REFERENCE: KA220-ADU-81D2BF47

5th NEWSLETTER of the Eco-media project
December 2022

Start date: 01-12-2021 / End date: 01-12-2023

In a digital world, professionals need to guide young people to engage in volunteering activities.

Meet our next steps:

Youth Work and Engagement in the Scope of Climate Change

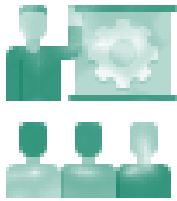

This project has been funded with support from the European Commission.

Setting our next goals!

Training Units for youth

Nine training units are under development and will be uploaded to the e-learning platform. The three training units aim to guide youth workers in their daily tasks and the six units aim to promote e-volunteering and digital activism among young people. The 3 training units for youth workers will include social media activism - digital literacy on social media; motivation methodologies for the engagement of young people in climate change and environmental challenges; becoming a better youth worker/trainer/mentor. The six training units refer to digital activism and how to become a digital activist to tackle climate change; e-volunteering for social challenges - what it is and how to become one; networking - Database with NGOs, organisations or other relevant actors in environmental sustainability; European opportunities for e-volunteering; community media for social responsibility and its role in tackling climate change; active citizenship and how to be an active citizen.
